## Romulus Train Trash Incinerator

### *The Problems, Dangers and Alternatives to Incineration*

Please come and learn from an independent expert how the impacts of the proposed "Waste to Energy" train trash facility at the Seneca Army Depot in the Town of Romulus would affect the Finger Lakes Region.

Guest speaker

**Dr. Paul Connett**

**Professor Emeritus in Environmental Chemistry  
St. Lawrence University, Canton, NY**

For the past 30 years, Paul has put his scientific knowledge to work by donating his time to communities around the world, helping them understand the science of controversial issues, such as waste incineration. In addition to educating communities on the dangers associated with these practices, he offers alternative solutions.

With an introduction by

**Judith Enck**

**Former head of the EPA Region 2 and former NYS Deputy Secretary for the Environment**, member of NYPIRG, where she researched incinerators, promoting zero waste and composting.
